

## Captain Walt's Log

Vol. 3, Issue 3, March 2010

### *Prepare now for the Fishing and Boating Season*

The open water fishing season has begun. We are fishing for panfish and walleye right now. Prepare your fishing equipment now so you can catch lots of nice fish later this season.

Check your rod(s) to make sure they are ready for another season. Examine the grip and reel seat to make sure they are in good condition. Inspect all the guides for cracks/nicks. Use a cotton swab and run it around the inside of each guide. If any are damaged, the cotton will catch on the defective area and you will detect the damage. Replace any damaged guides.

Examine your reel(s). Clean and lubricate as needed. Fill with fresh line. You will need good line for all those lunkers.

Check all the safety equipment on your boat. Make sure the life preservers are in good condition. Check all the other safety gear to make sure it is in good condition. Replace any damaged or questionable items. Safety first while on the water.

### *Take Me Fishing Issue*

Some of my favorite trips involve family outings. Helping families enjoy their time together on the water is special for me. Look at the happy faces below from successful family outings last year. Remember that we continue to offer our take a kid fishing discount for all trips that include at least one person under the age of 18.

We can accommodate anglers of all ages! So take your father and son fishing. Trust me, grandpa will have a blast fishing with his son and grandson. Take your adult daughter fishing and watch her catch the big ones and maybe out fish her father. Take your son in law fishing, help him enjoy the sport you enjoy so much. Take your nieces and nephews fishing, they will appreciate the time their aunt/uncle spends with them. You will enjoy spending time alone in the boat with them. Create some special memories with your family. Call me to schedule your family outing.
